## **ROSTER OF PHYSICS DEPARTMENTS WITH ENROLLMENT AND DEGREE DATA, 1994.**

This roster contains detailed data from the annual Survey of Enrollments and Degrees. The survey was conducted during the 1994-95 academic year and consists of all degree-granting physics departments in the United States. Presented in this roster are the data for the 1993-94 degrees and the 1994-95 enrollments.

The enrollment data are presented at three levels: introductory, undergraduate and graduate. The introductory enrollment figures represent the number of students who were taking their first college/university physics course. The undergraduate enrollments include students at the junior and senior level. Seniors, when identified by their department as beyond their fourth full-time year of undergraduate study, are categorized separately from fourth year seniors. Data on total graduate student enrollment, as well as the number of foreign and first year students included in that total, are given for departments that offer graduate degrees.

Degrees at all levels are shown in the right-hand column. The masters degrees are split into two types: MASTERS indicates degree recipients who discontinued their study of physics at that department and MASTERS ENROUTE indicates students who are continuing toward their doctorate in their current department. Degree recipients in the former category may continue physics graduate study at another institution.

Data are not presented for departments that did not contribute to the study. Some departments only supplied partial data and consequently have an incomplete entry.

# Notations used in this roster:

<i>m</i>	Department grants a masters as its highest physics degree. (N=76)
<i>p</i>	Department grants a PhD as its highest physics degree. (N=183)
GRADUATE DEPT ONLY	Department has no undergraduate program in physics. (N=7)
<b>MASTERS</b>	This column includes both masters degrees from masters-granting departments and masters degrees from doctorate departments whose students are leaving that department.
<b>MASTERS ENROUTE</b>	This column contains masters degrees from doctorate-granting departments for students continuing onto their PhD in the same department.
---	Data for this field were not provided.

The totals presented in the following table represent all physics departments. This includes data from the responding departments as well as estimated data for the non-responding departments. All estimates were derived from department responses to the survey in a previous year.
